## Who Are We?

Roscoe Culvert is a division of Roscoe Steel & Culvert Co. The markets served by Roscoe Culvert provided the original growth platform of the company at its inception in 1954, and continues to support our customers by providing engineered solutions for water management and soil conservation throughout western and northern Rocky Mountain regions. These engineered solutions are provided through the following three "value vehicles":

1. The proprietary manufacture and delivery of corrugated steel pipe that meets or exceeds requirements.

2. The fabrication of a broad range of corrugated and non-corrugated steel drainage and water management products.

3. The application and distribution of engineered solutions manufactured by top-of-the-line supply partners such as **MACCAFERRI, NORTH AMERICAN GREEN, HANCOR, CONTECH, FRESNO, PROPEX, and CETCO.**

Roscoe Pipe Delivery by Rail

Roscoe Culvert has a great team of applications and customer service specialists that provide solutions to our market customers, and a premier team of operations personnel that focus on Operational Expertise as a Value Discipline that drives our actions.

Through our extensive participation in the **NCSPA** (National Corrugated Steel Pipe Association), Roscoe Culvert shares in the development and applications of corrugated steel water management solutions throughout the world.

Bottom-line, Roscoe Culvert is Roscoe Steel & Culvert Co., and visa-versa. The Core Values, Mission Statements, and Operational philosophy's are consistent throughout.

## Did You Know That?

If you are looking for **LEED®** points, specify corrugated steel pipe and ask your Roscoe Culvert customer service professional for a recycle content certification because the high recycled content of Corrugated Steel Pipe can be certified to aid in earning LEED® points. And, the pipe meets all **AASHTO** and **ASTM** prime pipe standards.

Did you know steel  
is the world's most  
recycled material?
