Who is a Typical Roscoe Customer?

We could rattle off contractor after contractor, state after state, private owners all over the west, and Federal agencies and departments until the cows come home and not get to the end of the list of customers, suppliers, and alliance partners that we meet obligations with daily, weekly and monthly. Seriously, as soon as we list a few, we are sure to be mildly offensive to the great partners that we didn't list.

We respectfully request that you contact us and ask for multiple references in your regional or market-specific niche. We will jump at the chance of providing these references. This said, the following specific markets have been very appropriately, professionally and competitively supported in the past by Roscoe Steel:

Bridge Fabrication

Depts of Transportation:
CA, UT, OR, WA
ID, MT, CO, NE
MN, SD, ND, WY
Private owners

Structural Fabrication — Building

Hotels (multiple references - multi-story)
Schools (dozens and dozens)
Libraries, Police and Civic Structures
Industrial Plants (power, refinery, manufacturing)
Call & Tech Centers (multiple references)

Who Does Roscoe Steel Buy From?

We have supply partners that include:

Nucor-Yamato Steel, Chaparral Steel, Pacific Steel, Brown Strauss Steel, Atlas Tube, and Vulcraft. Click on any of these links and contact them for professional references on Roscoe Steel.

We have major Contractors that we have repeatedly worked with that we provide links to including **S.J. Amoroso, Groathouse Construction, Martel Construction** (Bozeman, MT), **Bernard Brothers Construction, Mallcraft Inc.** We openly encourage contacting these fine contractors to inquire where Roscoe Steel added value to their projects and their customers.

What is the Roscoe Steel Reputation?

In the fabrication business, the erectors that erect/install our steel can be the best judge of Roscoe Steel quality. We gladly pass on the following comments:

“California Erectors has had a successful 25 plus year relationship with Roscoe Steel due to their ability to cost effectively fabricate even the most complicated structural steel designs correctly with minimal problems and their timely ability to resolve field-related issues.”

John Konechne
California Erectors
Binicia, CA

“Midstate Steel Erectors would walk through fire for Roscoe Steel.”

Jerry Shipman
Midstate Steel Erectors
Stockton, CA

“Roscoe has a friendly and hard-working staff and it shows in their detailing and steel.”

Colin Peckham
Eagle Iron Erectors
Fontana, CA

“I want to pass along my deep appreciation for a job well done. Your team provided outstanding steel fabrication services for our call center in Missoula, Montana. Roscoe Steel was timely and responsive, especially given the fact that there were numerous changes along the way. Your team was accommodating and continuously performed above and beyond our expectations.”

Mike Flanigan
